

**HEALDSBURG**  
CHAMBER OF COMMERCE  
& VISITORS BUREAU

November 2, 2018

To: Bryan Cleaver, Emergency Medical Service Administrator  
From: Carla Howell, Healdsburg Chamber of Commerce President  
RE: Bell's Ambulance Service

Bell's Ambulance Service (Bell's) is not only our local emergency ambulance provider but a trusted, long time member of our community. The owners and many of their employees live in our community and are dedicated and active in many different ways. They donate time, services and funds to local events. For over 30 years Bell's Ambulance has provided EMT and emergency services to the Healdsburg Chamber of Commerce Annual Bike Tour. This allowed us the extra security we needed to enable an all- day bicycling event through Dry Creek and Alexander Valleys with no serious injuries and well -tended scratches and abrasions.

Bell's is not only one of our most important businesses but they are a significant part of our community and we need their services to continue. We have heard their business may not be secure and we know they provide an excellent service. The Healdsburg Chamber of Commerce and its members support Bell's remaining as our local emergency service provider. We are dedicated to the preservation of locally owned businesses, especially those like Bell's Ambulance, that have shown through hard work, dedication and perseverance their support, love and caring for our community.

Sincerely,

Carla Howell
